TITLE: SIGHT LOCKING DEVICE

AMENDMENT "A"

Director of the U.S. Patent
and Trademark Office
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

In response to the Office Action of December 3, 2003, having a response being due on March 3, 2004, please consider the following remarks:

REMARKS

Upon entry of the present remarks, original Claims 1 - 16 have been canceled and new Claims 17 - 36 substituted therefor. Reconsideration of the rejections, in light of the present remarks, is respectfully requested. The present amendments have been entered for the purpose of placing the application into a proper condition for allowance.

In the Office Action, it is indicated that Claims 1 - 16 were rejected under 35 U.S.C. § 112, second paragraph, as being indefinite. Additionally, it was indicated that the title of the invention was not descriptive.

In reply to the Official Action, Applicant has revised the language of original Claims 1 - 16 in the form of new Claims 17 - 36. New Claims 17 - 36 express the original limitations in a more proper U.S. format, including proper antecedent bases and proper structural interrelationships throughout. Any indefinite terminology found in the original claim language has been corrected herein. In particular, new independent Claim 17 corresponds to the limitations found in original independent Claim 1. New dependent Claim 18 corresponds to the limitations of original dependent Claim 2. New dependent Claims 19 and 20 have been expressed separately relative to the separate limitations found in original dependent Claim 3. New dependent Claim 21 corresponds to the limitations of original dependent Claim 4. New dependent Claims 22 and 23 correspond to the separate limitations found in original dependent Claim 5. New dependent Claims 24 - 26 correspond to the limitations of original dependent Claims 6 - 8. New dependent Claim 27 and 28 correspond to the separate limitations found in original dependent Claim 9. New dependent Claim 29 corresponds to the limitations of original dependent Claim 10. New dependent Claims 30 and 31 correspond to the separate limitations found in original dependent Claim 11. New dependent Claims 32 - 36 correspond, respectively, to the limitations of original dependent Claim 12 - 16.

Applicant has revised the title so as to now indicate that the invention is "EYEGLASSES HAVING ARTIFICIAL HORIZON THEREON".

Based upon the foregoing analysis, Applicant contends that independent Claim 17 is now in proper condition for allowance. Additionally, those claims which are dependent upon Claim 17 should also be in condition for allowance. Reconsideration of the rejections and allowance of the

claims at an early date is earnestly solicited. Since no new claims have been added above those originally paid for, no additional fee is required.

Respectfully submitted,
